TULIPS Sakata's Quality

In order to enable you to become acquainted with this new source of supply, we have a consignment of the following on hand. These Tulips are being widely used. We suggest you order a small quantity for trial.

Per 1000

Darwin, Farneombe	
Sanders	\$19.00
" Feu Brilliant . . .	23.00
" King George V. . .	23.00
" Pride of Haarlem	15.00

Immediate shipment can be made of good healthy bulbs.

TURNIP—SAKATA'S TOKYO MARKET

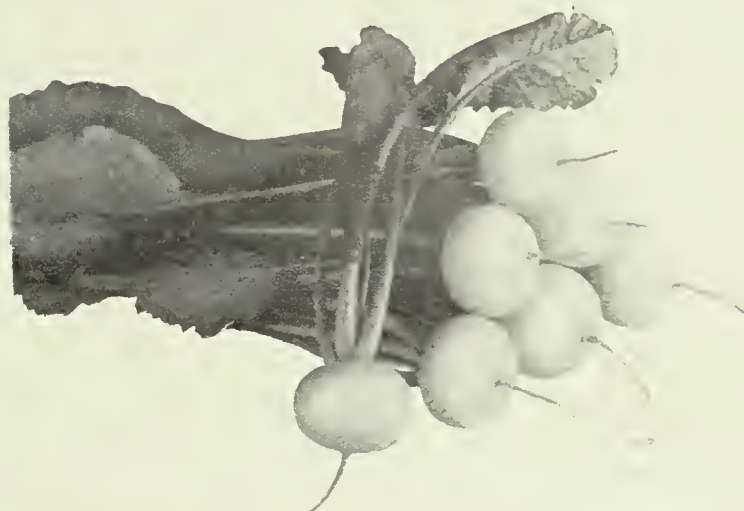

(popularly called Salad Turnip)

We again draw attention to Turnip. Sakata's Tokyo Market which is enjoying increasing demand in the South. This pure white Turnip with small flattened root produces a crop quicker than any other Turnip. The tops are always tender whether the Turnip is planted late in the Spring or early in the Fall.

Recommend this Turnip to your customers. You will build up a steady trade.

ONION—EVERGREEN WHITE BUNCHING

Please be sure to catalogue this item which, in the words of one of our customers, has solved the "Bunching Onion Problem". It may be planted either in Spring or Fall, thus assuring you of two selling seasons.

Shipments to the market of Evergreen White Bunching Onions have proved very successful and brought better prices than green onions of the White Portugal or Silver-skin types.

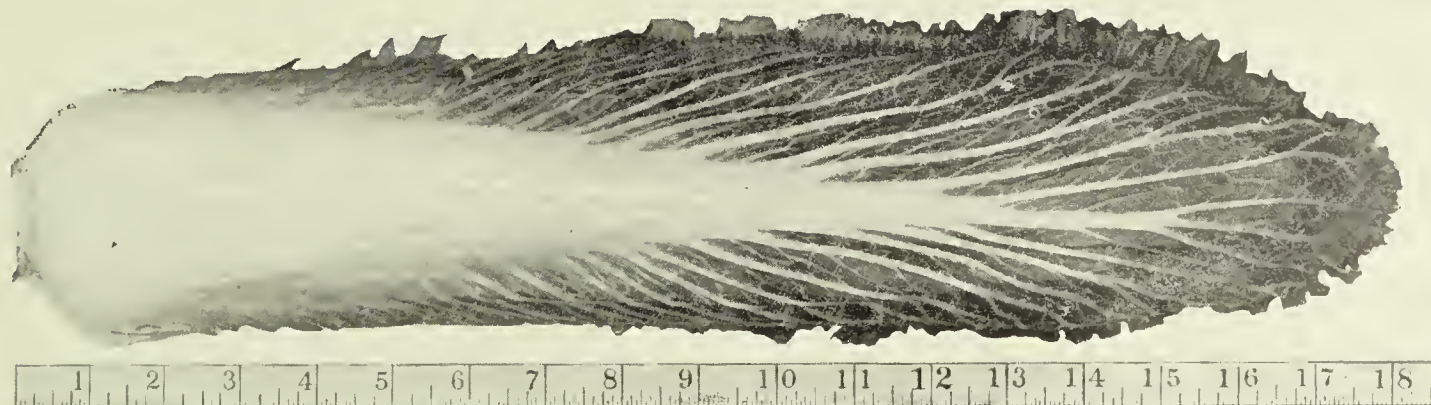

We carry stock in New York, but recommend that larger quantities be ordered in time to arrange direct shipment from the grower which means a considerable saving in freight and expenses.

Price per lb. — \$1.10 f.o.b. New York

CUCUMBER—SAKATA'S CHINESE LONG GREEN

Our own tests and those of our customers located over a wide area of the Eastern States, bear out fully the interesting report which appeared in the "Florida Grower" July issue from which we quote, "For some reason this Cucumber is immune to ordinary Cucumber diseases". For home Gardeners and small truckers it appears to be in a class by itself. The grocers in most towns and cities, once they are familiar with the big Cucumbers, buy them as fast as they grow on the vines.

Write to us if you would like to handle this variety.

CHINESE CABBAGE

SAKATA'S IMPROVED PEKIN or CHIHILI—also called CELERY CABBAGE—may be used as a Spring crop if started early. Main crop should be started when Fall Turnips are planted. If you cover your requirements by placing contract orders this item will show you a handsome profit.

FLOWER SEED at WHOLESALE

Please ask for complete list—we quote here only a few of the more popular varieties.

Customers along the Atlantic Seaboard will be pleased with the promptness with which their orders reach them.
